

PAID TRAFFIC MARKETING

IN A NUTSHELL

METHOD

For an ice-cold prospect to become a customer they will need to travel through three stages:

- Awareness** - the prospect must first become aware that there is a problem and that YOU or your organization have a solution for it.
- Evaluation** - Those that move through the Awareness Stage must now evaluate the various choices available to them, including your competitor's solutions.
- Conversion** - those that move through the Evaluation Stage are now at the moment of truth - purchase.

A cold prospect cannot evaluate your solution until they are first aware of the problem AND your solution. Conversion is impossible until the prospect has first evaluated the possible courses of action.

A successful paid traffic system consists of multiple advertising campaigns that work together to acquire leads and sales for your business at break even or better. Using a series of well-orchestrated ads and offers, you'll transform ice cold prospects into loyal customers.

To move prospects through a marketing funnel they will need advertising designed to satisfy their needs at each of the three stages.

- The **cold prospect** should be made offers that create awareness, build authority and establish trust.
- The **warm prospect** should be made offers that facilitate evaluation and convince the prospect to take action.
- The **hot prospect** should be made offers that encourage higher dollar, more complex or repeat purchases.

To move prospects through the three stages your advertising and messaging must be responsive to the prospect's stage in the "customer journey."

RELEVANT ROLES

Paid Traffic Marketing should be studied by members of the following departments:

MARKETING & OPERATIONS

As the competition for attention continues to increase online, all marketing teams must learn to buy traffic at a positive return on ad spend.

CONTENT & EDITORIAL

Any team member that is producing content (blogs, podcasts, videos, press releases, etc) must understand how that content can be leveraged by a paid traffic specialist.

IMPORTANT METRICS

Click Through Rate (CTR) - The number of clicks divided by the number of impressions on an ad and any other call-to-action. The higher the click through rate the more prospects you will be moving from stage to stage in the "customer journey."

Cost Per Acquisition of Customer (CPA) - The amount of advertising spend divided by the number of customers generated. Drill down on this metric by calculating CPA by traffic campaign, traffic source and more.

Cost Per Lead (CPL) - The amount of advertising spend divided by the number of leads generated. Once again, drill down on this metric by calculating CPL by traffic campaign, traffic source and more.

Cost Per Click (CPC) - The amount of advertising spend divided by the number of clicks on the ad, ad set or ad campaign. Believe it or not, this is the least important of these four metrics.

IMPORTANT LINGO

Traffic Temperature - The classification of the audiences you target with your digital advertising campaigns as cold, warm or hot.

Cold Traffic - Audiences targeted with ads that have no prior experience with your brands, products or people. Ads targeted at cold audiences introduce the business to the prospect and establish trust and authority in an effort to build awareness.

Warm Traffic - Audiences targeted with ads that are aware of your brands, products or people but have not yet converted to a customer or haven't purchased in a long period of time. Ads targeted at warm audiences should be designed to convince a prospect that you have the superior solution.

Hot Traffic - Audiences targeted with ads that have previously purchased. These audiences know your reputation and have used your product or service. Ads targeted at hot audiences should convert a customer into a high-ticket or repeat buyer. Most ad campaigns to hot audiences will be conducted through retargeting.

Retargeting Campaign - An ad campaign designed to reach customers and prospects with a message and offer that is based on their previous behavior. That behavior might be an opt-in to a lead form, a purchase or a visit to a page on your website. Ad retargeting is available from ad platforms such as Facebook and Google.

CERTIFICATION OVERVIEW

Customers are the life-blood of any business. In this mastery course you'll learn how to put together a traffic system that transforms ice cold prospect into loyal buyers of even your most expensive products and services.

Learn:

- The 3-step traffic SYSTEM that automates relationship building to turn cold prospects into brand evangelists
- Choose from twenty-six types of offers that can be made to cold, warm, or hot traffic audiences to ensure that you are acquiring customers on autopilot.
- How to analyze the metrics that actually matter so that you can cut the failing campaigns and double down on the ones that are working.
